

LIGHTING SYSTEMS

Northern California and Nevada

Access Lighting

A range of affordable contemporary decorative light fixtures for residential or commercial applications.

ACL Inc.

A team of artisans, designers and technicians that produce a unique blend of innovative neon, cold cathode and LED lighting.

AEC Illumination

An international leader specializing in street, urban, tunnel and decorative site lighting.

Airey-Thompson

Since 1935 Airey-Thompson has been manufacturing quality luminaires here in the U.S. and are experts in linear lighting for architectural, data center, undercabinet and cove applications as well as marquee and custom exterior lighting.

ANP Lighting ☉

Leading manufacturer of traditional and contemporary architectural outdoor and RLM lighting for commercial, residential, and municipal applications.

Architectural Area Lighting

(Part of the Current family)
Provides innovative pedestrian. Founded in 1966, AAL has been establishing new benchmarks of beauty and performance. AAL continues with new ideas, fresh perspectives, and enhancements of it's innovative portfolio.

Aron Lighting

U.S. based manufacturer of high performance architectural LED lighting products. They specialize in ultra-shallow form factors, true beam control LED optic and on-the-grid ceiling systems.

Artemide North America ☉

A leader in luminaire design collaborating with some of the world's most talented architects and designers. Based in Milan, Artemide continues to create forward-thinking, aesthetically enhancing and environmentally conscious lighting products.

Assurance Emergency Lighting

Provides a variety of life safety, code-compliant emergency lighting solutions.

Astro Lighting

British luminaire designers offering contemporary, timeless, and sleek lighting products. Astro can be found in a number of inspirational hospitality, commercial, and residential applications around the world.

Atkore AFC Cable Systems

Manufacturer of armored cable (Type AC, Type MC), metallic, non-metallic, and liquid tight flexible metal conduits, specialty cables, cable and conduit fittings, and integrated modular voice/power/data wiring systems.

Axolight

Designs and creates cutting-edge, high-end decorative luminaires. All lighting products are designed, manufactured and assembled by hand at their laboratory in Scorzè, Venice Italy. Quality, functionality and elegance are distinctive traits of their designer lamps and luminaires.

Barn Light USA

Favored by architects, designers and lighting professionals who desire rugged, dependable and stylish RLM lighting that can be customized to fit any projects needs. Hand crafted and American made, Barn Light Electric is a leading manufacturer of porcelain enamel, vintage inspired lighting products.

Beacon

(Part of the Current family)
Designs and manufactures high quality, specification grade outdoor lighting products that deliver industry-leading performance for the commercial, municipal and community development markets.

Birchwood Lighting

(A division of Leviton) Since 1993, Birchwood has designed and manufactured high-quality specification grade light fixtures to meet the demands of the architectural, commercial and retail design communities.

Bover USA

Known for their clean lines, elegant use of materials, and modern romanticism that translate quintessential Spanish ambiance into global appeal.

Brownlee Lighting

Manufacturers high performance decorative lighting products that exceed industry standards in quality, durability and value.

Cerno Lighting

Designs and builds original, energy efficient and eco-friendly luminaires in California. Their aesthetics are founded in modernism and contemporary design. Each product merges the latest technology with superb craftsmanship to produce decorative lighting for all applications.

Clear View Lighting

Clear-Vu Lighting offers the most innovative LED lighting products for construction, transportation, life science healthcare and commercial applications.

Cole Lighting

High-quality products including step lights, plugging boxes, sign lights, church lights, and illuminated handrails. They bring the highest standard of quality and craftsmanship to historic fixture refurbishment and luminaire replication.

Columbia Lighting

(Part of the Current family)
Economical energy efficient life safety products suitable for use in commercial or light industrial applications.

Compass

(Part of the Current family)
Manufactures economical LED emergency lights and exit signs.

Cooledge Lighting

Fuses light with architecture to bring custom or standard luminous ceiling surfaces to all interior applications. Their products range from flexible LED light sheets to sound absorbing luminous forms.

Coronet

World-class luminaires for architectural lighting applications. They use the best sustainable technology and practices in order to support the design visions of architects, designers, engineers and builders.

Crestron ☉

The world's leader in workplace technologies, engineering and transforming corporate automation and unified communication (UC) solutions for organizations across corporations, campuses, facilities, and more.

d'ac Lighting

Offers "soft industrial" style decorative and accent lighting for an array of interior applications.

Dado Lighting

Developed the first fixtures the thickness of drywall for architectural lines of light. Dado's luminaires are a complete system with replaceable LED panels - not a tape light in an extrusion.

Dalume Lighting

Committed to providing energy efficient LED lighting solutions that benefit commercial industries while offering maximum visual ergonomics for architectural interiors.

Manufacturers Represented

Designplan Lighting

Manufactures high quality decorative and architectural products for the indoor and outdoor markets. They have an expansive catalog that include steam room and sauna lights, illuminated urban furniture, fountain lighting, and ADA compliant sconces.

Design Pole

Provides unique, eco-friendly, design conscious concrete poles for a variety of exterior public space applications.

Dual-Lite

(Part of the Current family)
The broadest selection of commercial and industrial life safety products assuring orderly egress from occupied spaces and securing every individual's safety.

Duray Lighting

Manufacturers standard and custom fluorescent and LED lighting fixtures. They offer simple solutions for complex projects.

Eclipse Lighting

Manufactures indoor and outdoor architectural and vandal resistant fixtures for industrial, mixed-use and public spaces.

Ecosense

Provides the best in class LED lighting solutions across a broad range of architectural and commercial applications.

EELP

Offers a range of life safety lighting products from exit signs to emergency lights and harsh environment fixtures.

Elio

Energy saving and environmentally friendly LED lighting for healthcare, workplace, retail and architectural applications.

ELP

High-quality and efficient light fixtures for all applications. They specialize in architectural step lights, video conference lighting, library stack and display luminaires as well as wet location path lights.

Everbrite Lighting

Specializes in developing and manufacturing LED fixtures for MRI-safe lighting as well as custom solutions for any project.

Exo Outdoor Lighting

(Part of the Current family)
A selection of quality-engineered product families which make choosing and installing fixtures fast, simple and easy.

Feelux Lighting

Technologically advanced, energy efficient small scale linear lighting systems for architects, designers and builders worldwide. They offer a range of low-voltage fixtures that seamlessly integrate into healthcare, education, commercial, office, hospitality and retail settings.

Filamento

Designs, engineers and manufacturers high performance and specification grade LED high bay and low bay lamps and luminaires.

Flos Decorative

Leading manufacturer of top-end designer luminaires for both residential and professional sectors. FLOS boasts a catalogue packed with iconic decorative light fixtures created by legendary names in the history of design.

Flos Architectural

Designs and manufactures creative, elegant, flexible and innovative LED lighting systems aimed to brighten and accentuate any space. This division of Flos also includes a family of soft architecture products, and outdoor lighting solutions.

Flos Custom by Lukas Lighting

Industry leader in custom, handmade luminaires. Lukas Lighting assists the design community from dreams to conceptual drawings, to engineering and manufacturing, using the latest technologies.

Focus Industries

Manufacturers of landscape lighting products that offers an extensive product line including multiple finishes, materials, voltages, light sources and accessories.

Foscarini

Imagines, develops and produces decorative lamps that are conceived as design objects that transform spaces.

Goldeneye

The first and only lighting product with an LBC Red List Free Declare Label. Their 100% ceramic LED luminaires enable lighting to be embedded and blended into ceilings walls and cabinets – perfect for all commercial and residential spaces.

Hevi Lite

Quality architectural outdoor fixtures designed and manufactured in California for designers and specifiers all across the globe.

Holm Lighting

Best in class energy efficient line and low voltage LED landscape lighting and controls that seamlessly blends in with nature.

How Digital

Focuses on general LED lighting products for commercial workspaces including offices, warehouses, tunnels, garages and sports facilities. They also develop and deploy control systems and automation software for lights and other devices.

iGuzzini - North America

Committed to studying the future of lighting since 1959. They create solutions to enhance architecture and spaces – with the goal of improving the quality of life and well-being of people who live in them.

Intelligent Lighting Controls

Dedicated to providing high quality commercial lighting control products. Technology and commitment to quality has kept ILC at the top of the lighting control industry for over 30 years.

iLight

(Part of the Luminii family) A pioneer and leader in innovative LED illumination solutions that transform, excite, and energize corporate identities and architectural environments worldwide.

Indessa Lighting

Focuses on producing quality commercial wall scones at reasonable prices.

Intense Lighting

(A division of Leviton) Offers specification and commercial grade lighting solutions to enhance the environments where people work, play and live. They develop downlight, cylinder, track and lit handrail products with an emphasis on optical control and efficiency while providing a high level of visual comfort.

Intra Lighting

Global provider of quality architectural luminaires and smart lighting solutions. With a comprehensive portfolio of products, Intra Lighting designs and develops luminaires to fulfill various lighting needs.

JLC Tech

Unique and useful LED lighting fixtures for the built environment. T-BAR LED™ is the only lighting product that is designed, approved, and patented to replace the cross members in a suspended grid ceiling system.

Kim Lighting

(Part of the Current family)
Designs and manufactures quality, high-performance decorative outdoor architectural lighting products.

KKDC

Established lighting manufacturer producing a wide range of specialized, small form factor, linear LED lighting solutions for high-end architectural markets worldwide.

Kurt Versen

(Part of the Current family)
Premium architectural products designed to solve the unique challenges of today's design community.

Control Products

• **Northern California Only**

■ **Reno Only**

LaMar LED

Designers and manufacturers of Made in USA commercial LED lighting, featuring Occusmart, the original motion sensor controlled bi-level lighting system. Offering a complete line of high-quality luminaires for architectural and industrial lighting solutions.

Lantana

(Part of the Project Frog Family) Provides LED luminaires designed to seamlessly integrate with various ceiling systems, saving on installation and maintenance costs. Their integral drivers, PoE solutions, and low voltage remote drivers offer simple and easy connections from conduit or running low voltage.

Leviton

Lighting controls that provide precise and dependable devices, complementing any residential or commercial application. Leviton offers the potential for significant energy savings.

Lifeshield

(Part of the Current family) Products designed, engineered and manufactured for life, focusing on end-user needs while accommodating the unique requirements of the facilities in which the products will live.

Lightglass

Window-lights that deliver immersive and customizable circadian lighting experiences to light-deprived environments. Their window-lights are LED powered architectural products that look and feel like a window or skylight.

Litecontrol

(Part of the Current family) Committed to delivering the widest palette of tools and comprehensive services to maximize the power of lighting design and to minimize electric lighting's environmental impact.

Liteline

Specializes in industry-leading solutions that light up architectural, commercial, industrial and residential spaces. Whether it's new construction, retrofit or remodeling projects, their products are designed for ease of installation and maintenance.

Liton Lighting

Specification grade recessed and track lighting for both the commercial and residential markets. They are a leader in LED technology, with over 450 LED products that are designed for an array of applications.

Lumascap

Leading global manufacturer of exterior architectural, landscape and underwater lighting. They provide high quality, technologically advanced lighting solutions that are simple to specify, install and maintain.

Lumenpulse

Designs, develops and manufactures a wide range of high performance and sustainable specification-grade LED solutions for commercial, residential, institutional, and urban environments. Their luminaires offer a 'crayon box of options' - myriad choices of optics, colors, accessories and finishes - that allow designers to solve all types of lighting challenges.

Lumenwerx

Dedicated to the next generation of high performance, sustainable architectural lighting equipment. Their portfolio of products both meets market needs and suggests new directions in LED technology. Lumenwerx offers unique luminaire collections from discrete systems to configurable arrangements – for recessed, pendant, surface and wall installation – in both familiar and fresh form factors.

Luminart

Innovative architectural and decorative lighting solutions for a diversity of projects in commercial, hospitality, urban and residential spaces.

Luminii

Specification grade linear LED luminaires. For architects, lighting designers, and contractors seeking high performance and high quality lighting solutions. Luminii delivers thoughtful lighting options including unique one-of-kind designs, completely outfitted luminaires, micro track and down light products, and architectural modular systems and components.

LUX Dynamics

Manufacturing energy efficient, sustainable and robust LED high-bay lighting, while also specializing in solutions for natatoriums and other indirect lighting applications.

Magnitude Lighting

Independent LED power company that focuses on LED drivers and transformers for commercial, industrial and residential applications. They push the boundary of dimmable LED lighting innovation across the full spectrum of LED drivers.

Manning Lighting

Family-owned company that offers an extensive line of traditional and contemporary church lighting for all denominations and budgets.

Marset

Based in Spain, Marset offers a collection of playful and modern decorative luminaires that feature unique forms, handcrafted details and innovative designs aimed to enhance the quality of a space.

MaxLite

From new construction to retrofit or renovation, MaxLite offers the most complete portfolio of lighting solutions to help businesses of all sizes and industries to save energy and meet building codes.

Metalumen

Understanding the art and science of luminaire design. They develop lighting solutions that fit the needs of the healthcare, educational, and commercial sectors. They also specialize in transportation and natatorium LED lighting.

MP Lighting

Specializes in manufacturing specification-grade architectural LED fixtures, as well as low voltage, line voltage, and multi-circuit track systems. Products are suited for interior or exterior commercial, institutional, hospitality, and residential applications.

NLS Lighting

Energy-efficient commercial outdoor LED lighting products. Their American-made products feature NLS' Dark Sky compliant and Full Cut off patented Star Power™ optical technology.

NX Lighting Controls

(Part of the Current family) Scalable platform of sensing, controls and IOT devices enable specifiers and architects to create seamless, human experiences which provide cost, maintenance and energy savings.

Optic Arts

(Part of the Luminii Family) Architectural grade modular systems and components that include – indoor and outdoor brilliant white or dynamic color flexible LED tape light.

OptoLum

Leading manufacturer in the production of specification grade precision LED lighting systems. Each fixture is highly customizable to fit the unique challenges of every application.

Pablo Design

With 25 years of design, Pablo Lighting has been at the forefront of American contemporary lighting. Based in San Francisco, their team of Designers fuse the latest technology and unique materials to create timeless designs that transform any environment.

Control Products

 **Reno Only**

Pathway Lighting

Innovative designer and manufacturer of specification-grade LED luminaires. Their product line is designed for the commercial and institutional markets and include downlights, wall washers, adjustable accents, high-bay and low-bay pendants and cylinders.

Penta Light

Designing and crafting high quality, contemporary decorative luminaires since 1975. While each design remains faithful to tradition and craftsmanship, Penta experiments with new technologies and lighting solutions.

Perfect Power Systems

Manufacturer of ISO 9001 central emergency lighting invertors that operate within a wide range of lighting applications.

Precision Lighting

(Part of the Luminii family) British manufacturer with a proud legacy of creating architectural luminaires and lighting systems that represent a fusion of optical excellence and aesthetic appreciation. Their attention to detail drives them to create best in class lighting solutions with a focus on delivering highly efficient, elegant luminaires without compromising on the demand for outstanding optical performance.

Prescolite

(Part of the Current family) A prominent force in the lighting industry focused on downlighting, track and surface products.

Primus Lighting

Products that help solve challenging and unique applications. Their fixtures are catalogued as standard, however variations to suit special project needs are easy to accommodate. They also specialize in small profile luminaires for accent, merchandising, landscape and the illumination of architectural features.

Puraluce

Based in Italy, Puraluce designs and manufacturers elegant and innovative interior and exterior luminaires using the latest and most advanced lighting technology.

Ragni Lighting

Manufactures over 250 customizable luminaires and is recognized in the industry as leaders in providing the highest quality, most sophisticated, and technologically advanced outdoor site and area lighting solutions in the world.

RBW

Independent design and manufacturing lighting company that provides modern decorative and architectural LED luminaires. They are driven by technology, stainability, simplicity and artistry. RBW is a Certified B Corporation.

Rebelle Architectural Lighting

Designing luminaires to ease the coordination and specification of lighting by providing families of luminaires that flow from the exterior to the interior of a building project.

Red Sky Lighting

Explosion proof, durable LED light fixtures designed for the most hazardous environments.

Remote Controlled Lighting

(RCL – Part of the Luminii family) is the pioneer of remote controlled motorized architectural spotlights. RCL's passionate product designers and engineers are constantly striving to bring cutting-edge lighting technologies to an ever-evolving product portfolio.

Revelite

(Part of the Cerno Family) Brings art to life – evenly illuminating an artwork surface with beautiful color rendering accuracy. Their slim luminaire discreetly and uniformly lights artwork with a patented combination of LED technology, optical precision and mechanical design.

Santa & Cole

Based in Barcelona, Santa and Cole is a small, independent manufacturer of luminaires. More than 80 designers, artists and creators have contributed to their unique catalogue of lighting products. They offer modern and versatile designs – perfect for adding style to the home or workplace.

Senso Lighting

(Part of the Luminii Family) Dedicated to providing the best possible lighting for any environment. Since 2007, Senso has been designing robust, environmentally conscious lighting solutions including downlights, track, surface mount, and pendants serving a wide range of applications.

Sensorworx

Leader in North American architectural LED lighting focusing on supplying sleek, innovative solutions for interior and exterior environments.

Sentry Electric

Providing quality standard and custom products to the lighting industry for over 70 years. The company's USA-manufactured, specification grade products deliver reliability, durability, and long-term customer satisfaction.

Sheridan Lighting Systems

Affordable, custom, creative lighting solutions. They specialize in exterior post tops, bollards and poles.

Sistemalux

(Part of the iGuzzini family) A leader in North American architectural LED lighting and focuses on supplying sleek and innovative solutions for interior and exterior environments.

Solas Ray Lighting

Hazardous area LED lighting. Their catalog offers lighting equipment for industrial, food service, wash down, harsh area and specialty applications.

Soraa

The pioneer of full spectrum color rendering LED lamps. From professional lamps to consumer lamps, SORRA manufacturers high quality light that matches the characteristics of our most natural illumination: the sun.

Specialty Lighting

Flawless, high-end lighting solutions for commercial, institutional, retail, hospitality and residential applications. They are also the manufacturer of [Graffiti](#) – a family of fixtures designed to provide flawless ceiling integration at affordable price points.

Stickbulb

Using reclaimed and sustainable sourced wood combined with energy efficient LED technology to create one-of-a-kind, sleek luminaires designed to plug into and out of various steel hardware connectors without tools. The result is a light-up erector set of interchangeable components that allows for unlimited customization and creativity.

Technilum

Urban outdoor lighting for city centers, pedestrian and bicycle paths, parks and landscaped gardens. Their products range from pedestrian- scale light poles to lighting columns or bollards.

Terzani

Based in Italy, Terzani designs sophisticated, innovative and original luminaires using the latest technology and finest materials. Each luminaire is hand-crafted by local artisans using traditional methods to sculpt and capture light, shadow and motion.
