## We Have a Point Source for That

---

Our point source solutions have been designed with a family-like compatibility that ensures visual consistency, technical continuity, and performance across multiple applications. There might be an app for everything, but Lumenpulse has a point source for every application.

This 30min webinar will walk through our Point Source product offering at a high level.

## On-the-Fly, in the Blink of an Eye

---

Optics and accessories can be changed in the field, wherever the luminaire is mounted. Styles, designs, and minds can change as often as they like — our luminaires instantly adapt. With optic, color, accessory, and finish options galore, there's nowhere they won't go.

This 20min webinar will go through the mounting options for our Point Source family at a high level. It will also cover field-changeable items for the three product categories.

## Take Control

---

Our control agnostic point source solutions provide brand-specific dimming drivers that tailor to any vision or project. This includes our ground-breaking Lumentalk, which gives you digital control over existing powerlines without having to rewire or break ground.

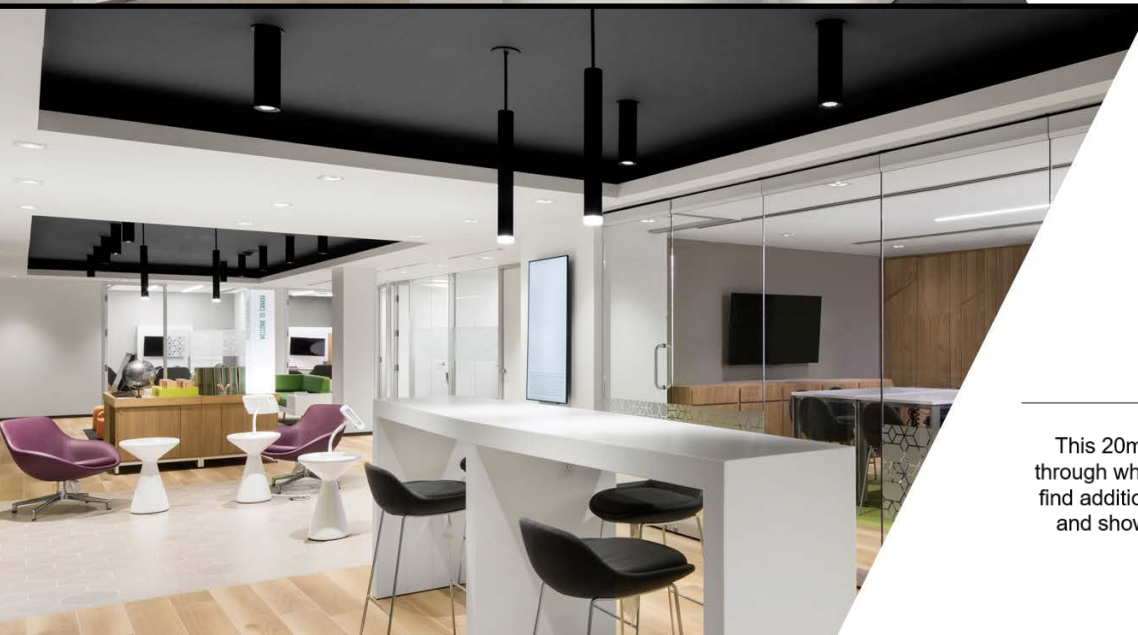

This 20min webinar will walk you through the dimming protocol options for our Point Source family at a high level.

## Architectural Performance Downlights

Architectural High-Performance Downlighting

This 20min webinar will take a deep dive into the Lumencore product family. This includes a hands-on explanation of the parts and pieces that make Lumencore the perfect downlight solution for any project.

## Install Ready

How to Install Your Point Source Products

This 20min webinar will walk you through what's in the box, where to find additional product information, and show you a few tips to make install easy.

## Agent Portal

Tools for Better Business

This 15min webinar will walk you through what is available in the Agent Portal, how to create a quote, as well as create a submittal package.
